Experience

Eastern Standard

Philadelphia, PA (Nov. 2017 - Apr. 2026)

- Led the development of numerous custom WordPress and Drupal websites using HTML, CSS, JavaScript, and PHP
- Built custom JavaScript and PHP solutions to solve unique needs based on project requirements
- Spearheaded the development of company-wide frameworks and standards for the development team
- Utilized Pantheon, Acquia, WPEngine, Github, and Gitlab to configure development workflows and deployment pipelines
- Worked with project managers and communicated with clients to create technical project plans and requirements documentation

Miles Technologies

Moorestown, NJ (Aug. 2014 - Nov. 2017)

- Used HTML, CSS, jQuery, SEO best practices, and Adobe Design Suite to design, develop, and maintain websites across various platforms
- Developed custom themes and implemented plugins including Advanced Custom Fields for WordPress websites with PHP and MySQL
- Implemented advanced website functionality with third party APIs, custom JavaScript solutions, and ecommerce platform back-end integrations

Education

Ithaca College

Class of 2014

Roy H. Park School of Communications

- B.S. Integrated Marketing Communications
- Web Programming Minor
